Suite 110

Riviera Beach, FL 33404

561-845-8233

www.safetycouncilpbc.org

Classes are also available on-site

Hands on Training available at no extra Charge

This course will cover aerial, scissor, and bucket lifts. These lifts are similar in function and use but there are distinct differences.

Fall protection is a system planned for a worker who loses his or her balance. Employers and employees need to use Fall Protection and to learn how to use it properly.
